# L'ASTERELAS in Endourology Under the Volcano

## Catania, April 29th - 30th 2015

Azienda Ospedaliero-Universitaria Policlinico Presidio Ospedaliero Vittorio Emanuele

**Course Directors: Alberto Saita Cesare Marco Scoffone** 

### Dear Colleagues,

the main objective of this course is to share the latest technical approaches of percutaneous renal stone treatment. Therefore the present Masterclass is dedicated to a limited number of endourologists, willing to deepen their knowledge in this field. During the oral presentations all the important topics about percutaneous nephrolithotomy will be treated and discussed. Live Surgeries performed by major European experts will offer the chance to discuss "on the field" the current state of
